

Follow the Money

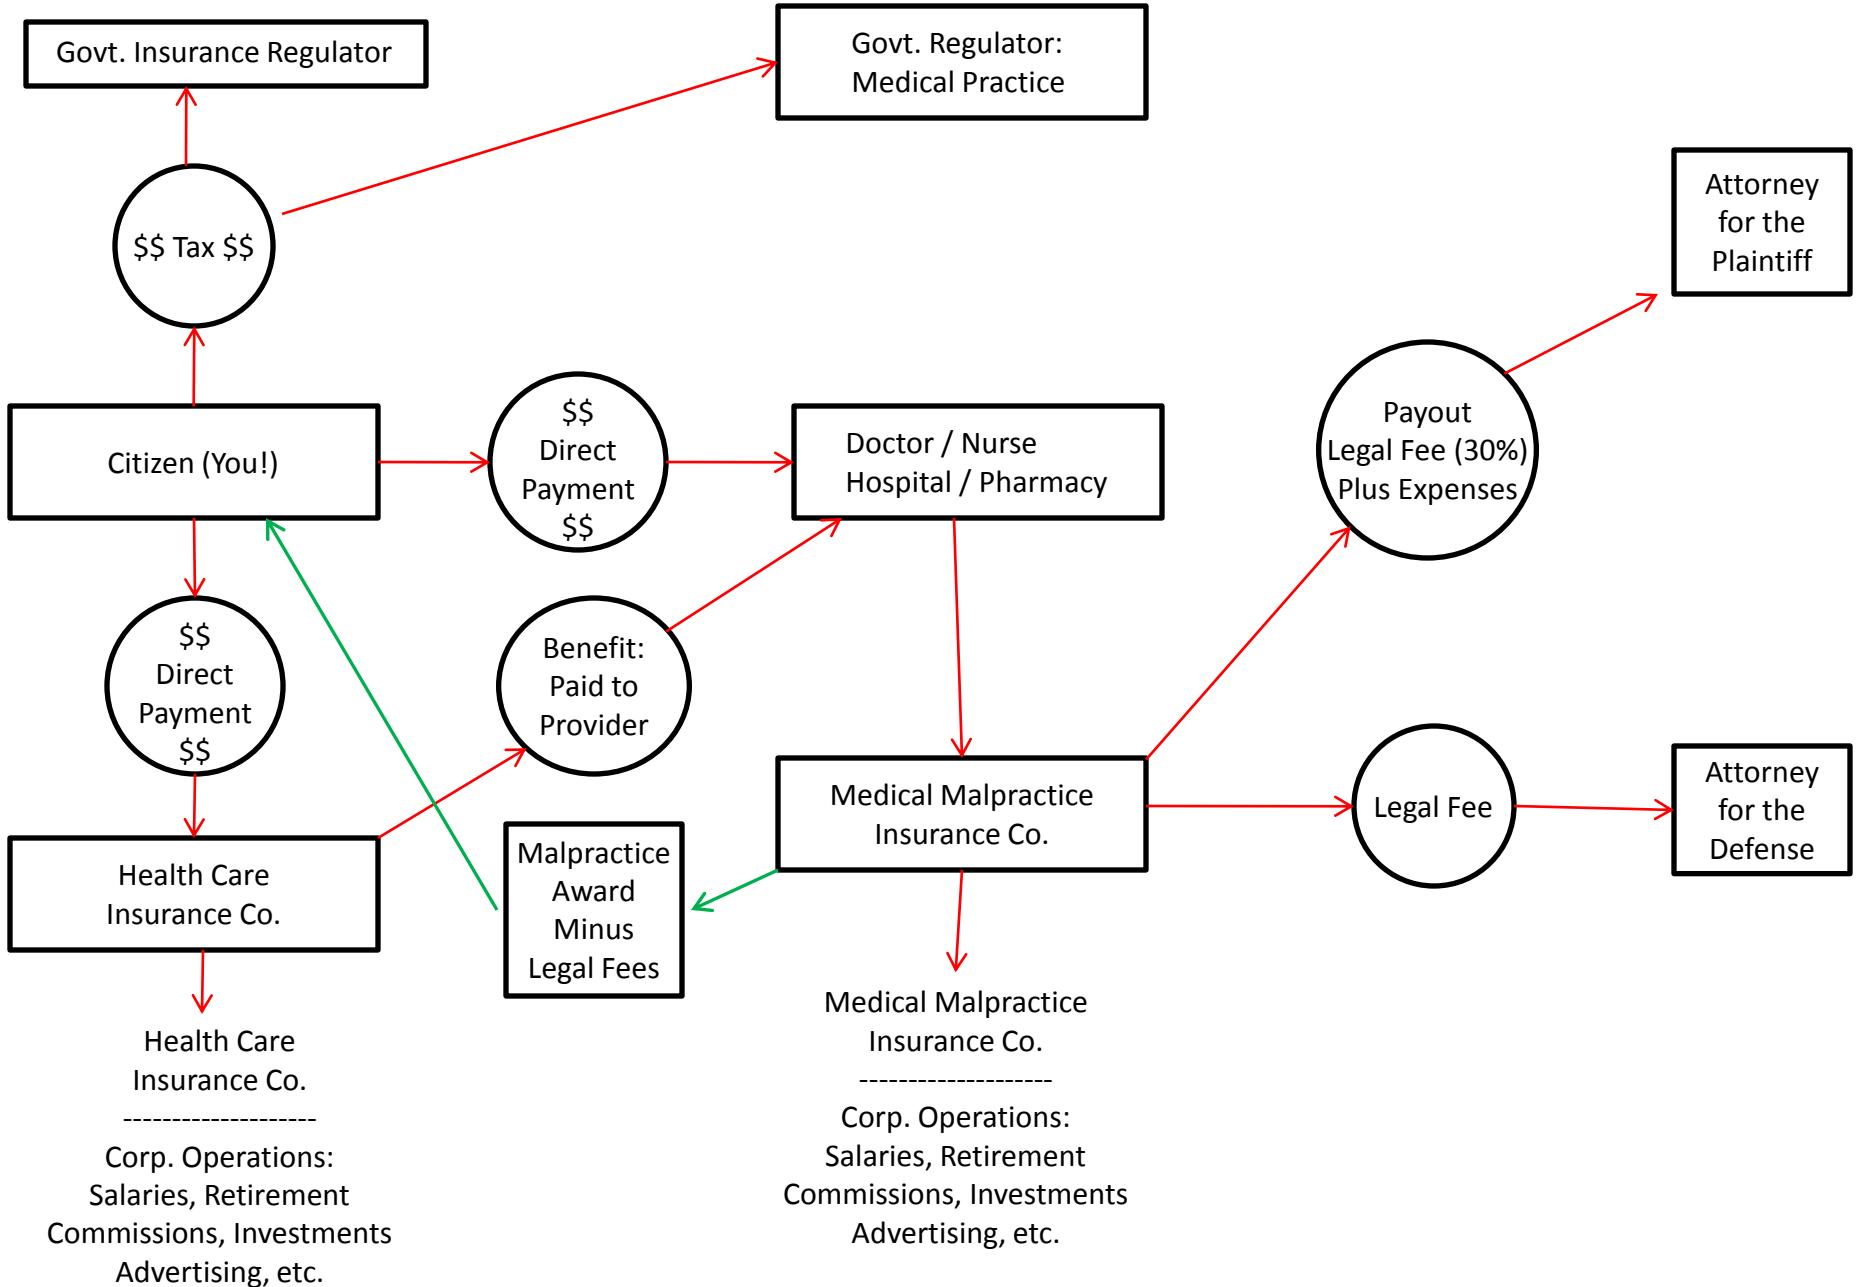

Health Insurance and Care

The following is a cash flow chart representing where money flows in the health care and insurance industry.

It omits drugs because to include them would make the chart too complex to read.

In the following slide, the red arrows are all flow pathways that originate with you.
Your premium or your taxes support the entire system.
The green arrows show what happens in the event that a Malpractice Claim
is upheld and you receive a benefit.

Medical Insurance and Care Cash Flow

Look closely now at the previous slide.

The green arrow reflecting a legal award comes from the Malpractice Insurance Company.
The Insurance Company gets the money to pay the claim from the Doctor or from investors.
You pay the Doctor through your co-pay and premium.

It's ALL your money, including the dividends paid to the investors (not shown).

It's your right to vote

It's your responsibility to vote wisely.
